Muhammad Zahid Talib

Flutter Developer | Cross-Platform Mobile Application Engineer

📞 03071228891   @ mz112078@gmail.com   🔗 <u>LinkedIn</u>   📍 Muslim Town ,Lahore

SUMMARY

Motivated **Flutter Developer Intern** with hands-on experience in building **cross-platform applications** using **Flutter and Dart** for Android and iOS. Familiar with **clean architecture**, **state management**, and **REST API integration**, along with **local and cloud databases**. Eager to apply academic knowledge to real-world projects, contribute to team success, and grow as a professional software developer. Highly motivated to learn, adapt, and contribute to scalable mobile solutions while gaining industry-level development experience.

EDUCATION

B.S. Computer Science

Khwaja Fareed Univeresity of Engineering and Information Technology

GPA
3.54 / 4.00

📅 08/2021 - 10/2025   📍 Rahimyar Khan, Pakistan

EXPERIENCE

Flutter Developer

SunTech   📅 07/2025 - Present   📍 Bahawalpur, Pakistan

Flutter Developer (6 month experience)

I am a passionate Flutter developer with hands-on experience building **real-world mobile applications** using **Flutter, Dart, and Firebase**. I have worked on multiple academic and personal projects where I focused on **clean UI, scalable architecture, and performance optimization**.

- Designed and implemented **data-driven UI screens and analytical views** using Flutter, Firebase, and third-party visualization packages.
- Collaborated with senior developers to identify core application requirements, data models, and user flows for Flutter mobile applications.

PROJECTS

Quiz & Personality Development App

A Flutter-based mobile application featuring quizzes, personality tests, user authentication, progress tracking, and leaderboards using Firebase for real-time data management.
→ Built a modern Flutter quiz app
→ Implemented **Firebase Authentication**
→ Used **Firestore** for quiz data, user history, and leaderboard
→ Designed smooth and child-friendly UI/UX

Point of Sale (POS) Management System – Final Year Project
Flutter, Dart, Firebase, SQLite

A business-oriented Point of Sale mobile app built with Flutter and Firebase, supporting role-based access , product management, billing, invoice generation, and real-time transaction tracking.
→ Developed a **role-based POS system**
→ Integrated **Firebase Firestore & Storage**
→ Implemented product management, checkout, and invoice generation
→ Followed **clean folder structure and scalable architecture**

(i)   *Pharmacy Management System App*   (ii) *Admin Dashboard App*

(iii) *Online Appointment Booking App*   (iv) *Smart BMI App*

SKILLS

Programming Skills

Flutter SDK   SQL   Dart programming

Java   basic JavaScript

Mobile Development

Android   iOS   Responsive UI

Custom Widgets   Cupertino Widgets

State Management

GetX   Provider   Bloc/Cubit (Familiar)

Backend/Storage & APIs

RESTful APIs   JSON Parsing

Firebase   Supabase

Databases

SQLite   SharedPreferences

Architecture

Clean Architecture   MVVM   MVC

Tools

Git/GitHub   Figma   Postman

STRENGTHS

💬 **Verbal & written communication**
I use open-mindedness, empathy, and patience to lead valuable discussions, translate complex subjects into clear insights, and accurately understand client requirements.
